

 <i>Tasracing</i>	DISLOGED RIDER PROCEDURE	
TRACK AND FACILITIES		
CONTROLLER: TRACK AND FACILITIES	OWNER: TRACK AND FACILITIES MANAGER	
REVIEWED: COO	SCHEDULED REVIEW: 05 MARCH 2028	

1. PURPOSE

This document establishes a checklist in the event that a rider is dislodged from a horse during track work.

2. PROCEDURE

In the event of a trackwork accident or trackwork rider being dislodged, a warning siren will besounded. All riders already on track are to ease their mounts to a walk and proceed with caution.

No other horses will be permitted to enter the track until all clear is given by the Track Supervisor.

3. PROCESS

- 3.1 Sound warning siren and turn on flashing warning lights.
- 3.2 Lights must stay on until the track is clear.
- 3.3 Close gates to track.
- 3.4 Assess if buggy is needed to access dislodged rider.
- 3.5 Give verbal instructions to any participants in close proximity who may be able to assist in capturing the horse.
- 3.6 Take a first aid kit and defibrillator with you.
- 3.7 If possible, park buggy in front of dislodged rider to provide protection to the dislodged rider from the loose horse.
- 3.8 Attend to the dislodged rider and;
 - 3.8.1 commence first aid if required,
 - 3.8.2 call ambulance if required,
 - 3.8.3 advise employer.
- 3.9 Do not leave the dislodged rider under any circumstances unless another person with first aid training can relieve you.
- 3.10 Call senior manager.
- 3.11 If an ambulance has been called remain with the dislodged rider until the ambulance has arrived.
- 3.12 Organise a staff member to notify when ambulance arrives, assisting with where to attend rider
- 3.13 Once the dislodged rider has been removed from the track ensure inspection of the track surface and undertake remedial work to the area if required.
- 3.14 Re-open track.
- 3.15 Complete Incident report and debrief with Manager

- 3.16 Advise WorkSafe Tasmania if required.
- 3.17 Any concerns around the dislodged rider receiving concussion should be notified to the Stewards
